

## Passenger Car Pads: 2396001 / 2396081

We will change the specification of 2396001 and 2396081. The full cover shim will be changed to a version with cut outs (see pictures). For the new shims it is absolutely necessary to pay attention to the correct mounting side, which are indicated by small arrows in the shim. For further explanations see below mounting instruction that is also put inside the box:

With this change we are in line with the current OES designs where this change was also done in the near past due to some noise critical applications (especially MB S-Class W221).
