

T2300

**PREMIUM O.E. 23,000 LBS.
GAWR**

FOR TRUCK, TRACTOR & TRAILER APPLICATIONS

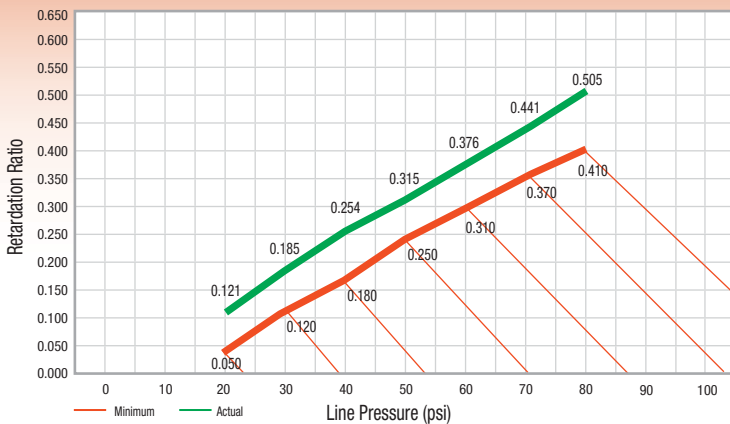

- T2300 is an O.E. approved premium grade 23K lbs. rated product for all applications, including **some vocational and severe duty**.
- Designed for most demanding applications in all environments & driving conditions.
- Solid proven field performance in all applications.
- Exceeds FMVSS-121 standards at 23K lbs. axle rating with a 165 AL Factor.
- Low thermal expansion.
- Good drum & friction wear per TMD O.E. Wear & Temperature test procedure (TMD O.E. W/Test).
- **Best premium value product for the performance and safety conscious fleets.**

FMVSS-121 CONDITIONS:
Axle Rating: 23,000 lbs. | Brake Size: 4707 16.5x7
AL Factor: 165 | Rolling Radius: 20.8 inch

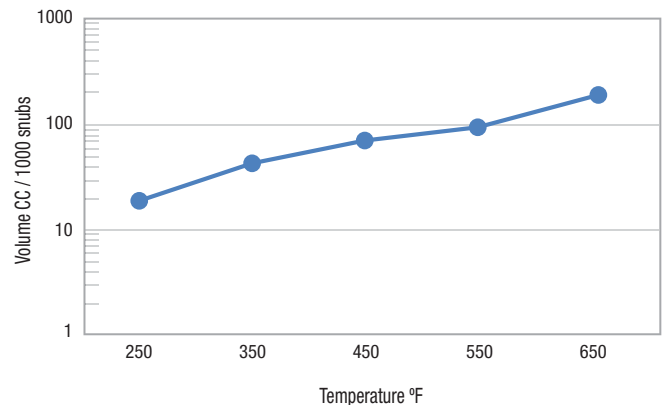

WEAR CONDITIONS:
Axle Rating: 23,000 lbs. | Brake Size: 4707 16.5x7
AL Factor: 165 | Rolling Radius: 19.7 inch

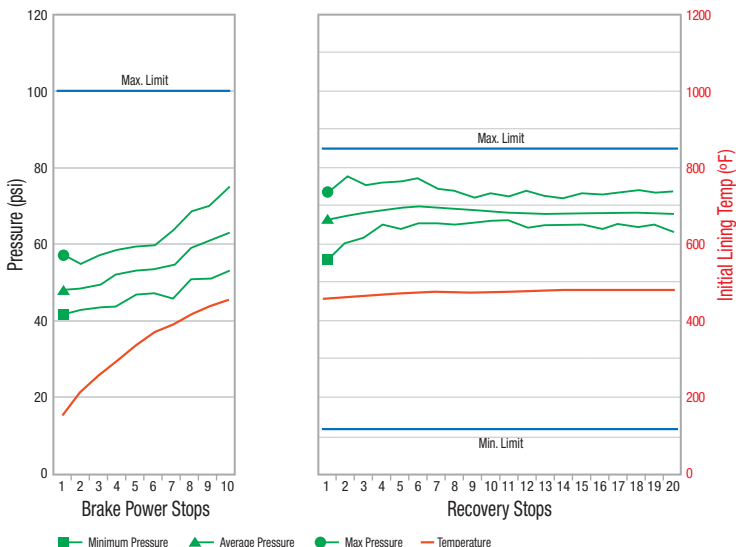

RETARDATION

TMD O.E. W/T TEST

BRAKE POWER & RECOVERY

FRICTION PROPERTIES

Gogan hardness	26
Specific gravity	1.84 gr/cm ³
Transverse Rupture Strength	5,000 psi min.

SAE J661A

Normal friction CoF	0.430 F
Hot friction CoF	0.415 F

O.E. AND O.E.S. PROGRAM APPROVED

T2300
